

## IHM maintenance: light into the dark

**Date: 15th April, 2021 at 15:00 – 16.30 (CET)**

WISTA invites you to a webinar of a different kind. Do you have questions about how to tackle the IHM maintenance burdens that come across the industry? Have you struggled with providing Material Declarations (MD) to your customers? Are your Suppliers Declarations of Conformity (SDoC) prepared? Did you face issues when contacting your factories for proper documentation?

Hands on and talking facts, WISTA invites you to take part in a discussion on the status quo issues that the industry faces. How better than solving it together?

We have invited major stakeholders being in the process of automating the systems and presenting one kind of a solution. Do you also have a solution? Feel free to join and share your thoughts and your input. We are stronger together.

**Guests:** Oliver Tiedchen (Nordic Shipmanagement),  
Henning Gramann (GSR),  
Hanneke Dekker (SGS),  
Wouter Hagens (Nautiluslog),  
Anne-Marie van den Bosch (Kerger),

**Moderator:** Marielle Gehlert (Anthony Veder)

15:00 Welcome and introduction  
15:05 Shipowner's Insight on the Progress of the Maintenance System
